ABOUT US

TOQ ALMSAR PARKING CAR WASHING L.L.C is committed to creating the best possible car wash and valeting system, whilst also being the most environmentally friendly car wash available for the business operator.

TOQ ALMSAR PARKING CAR WASHING L.L.C will be the UAE's first Waterless car wash service in the region using the greenest available products and operational services to create an unrivalled "ecofriendly" car wash operation.

TOQ ALMSAR PARKING CAR WASHING L.L.C has teamed up with a UK based company specializing in the latest in waterless technology for cleaning vehicles, all the products are also 100% environmentally safe and have no effluent impact on the environment.

TOQ ALMSAR PARKING CAR WASHING L.L.C doesn't require any external storage, water or electrical supply to operate, therefore reducing fixed costs to the facilities Management or business user. We use the latest in waterless technology. We ensure that your site is left in the pristine condition as we found it in.

OUR VISION

At TOQ ALMSAR PARKING CAR WASHING L.L.C, we envision a future where every vehicle on the road receives the care it deserves. Our goal is to revolutionize the car wash industry by providing an unmatched customer experience and leading the way in sustainable and eco-friendly practices. We strive to become the preferred choice for car owners, fleet operators, and businesses seeking top-tier car care solutions.

With our vision as our guiding light, we will forge ahead to transform the car wash industry, setting new standards of excellence and becoming synonymous with trust, quality, and innovation. Together, we will redefine the art of car care, one wash at a time.

ULTRA SHINE CAR PROTECTION

As the product is applied and gently moved around the surface, it images an electrical field that attracts the already positive charged and coated dirt particles up in to the negatively charged moving cloth. Not only is the dirt swept up in to the cloth without scratching the surface, but it simultaneously coats the surface with a high-tech layer of proprietary polymer protection. This eliminates the need of the old fashioned vegetable based car- wax or other waxes and their chalky residues.

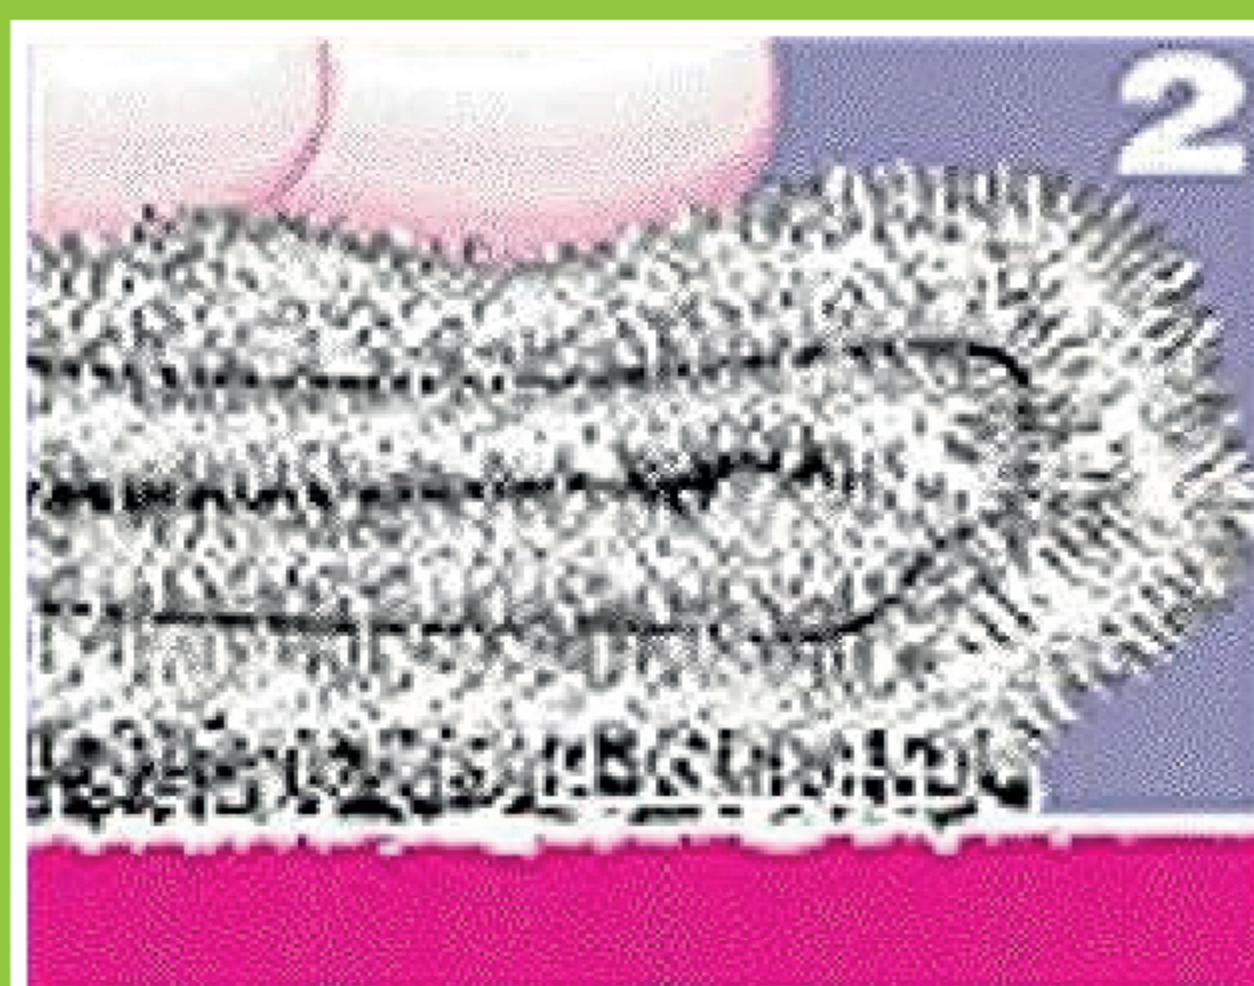

Additional side benefits are an anti-static barrier that prevents your vehicle from attracting dirt and water, and UV Protections that will help prevent oxidation and/or the cracking or discoloring of paint finishes, clear coats and is generally petroleum based, while ours is a completely non-toxic, biodegradable-safe to the environment all-around product.

You will find that we have revolutionized the way to clean and protect vehicles.

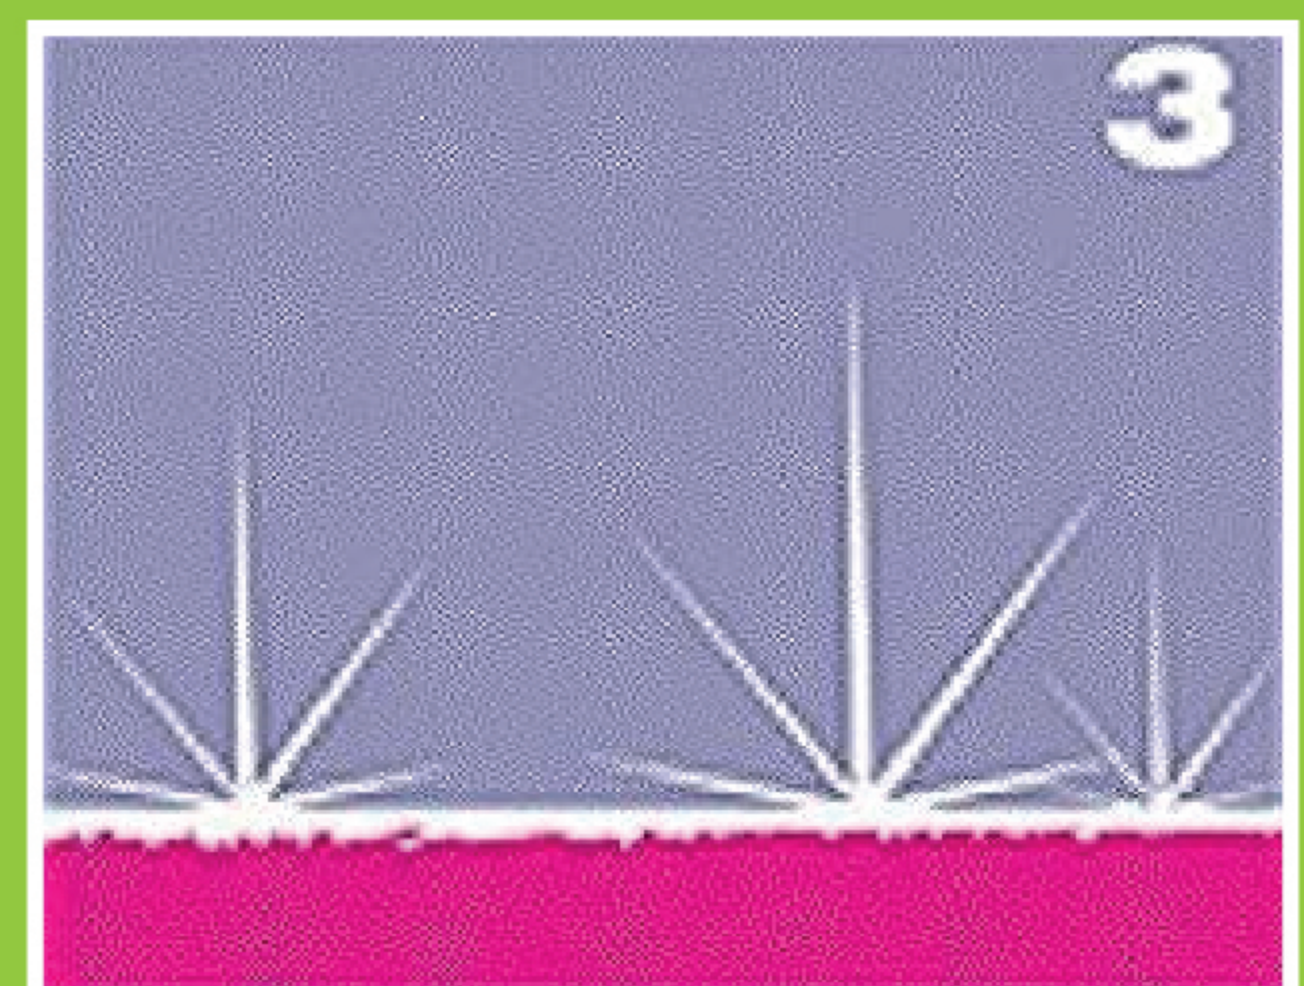

TOQ ALMSAR PARKING CAR WASHING L.L.C HOW IT WORKS

*Encapsulates Soil
By Surrounding
Dirt Particles*

*Easily Wipes Off Dirt
Without Scratching
The Paint Surface*

Wash and polish with every service

The world's greenest car wash service

Fast and Efficient Service

Saving over 140litres of water per car cleaned

TECHNOLOGY & PROCESS

The solution is sprayed on the car surface with our unique Waterless solution, the paint work is then wiped with our recycled microfiber cloth then buffs to a highly polished shine. (please look at images)

In technical jargon, the solution works by using hi-tech ingredients that include cleaning chemicals and polymer protect ants combined into one super- convenient product.

This completely eliminates the need for water, soap, hoses, chamois, buckets and waxes when cleaning your car.

The solution contains a special blend of trade-secret surfactants, which lift-up and suspend the dirt from the surface, where it is swept away with the proper toweling without shimmering, smearing or scratching the bodywork.

**it should not cost the earth
to wash your car...**

THE ECO CAR WASH SOLUTION

product 

TOQ ALMSAR PARKING CAR WASHING L.L.C is a unique all-weather cleaning product that is completely biodegradable causing no harm to the environment. No water is needed at any step!

microfibre 

The WaterWise microfibre cloth can soak up 9 times its weight in water. Pulling the dirt away from the surface without scratching the paint of your car.

Qualified & Friendly Crew*

Eco-friendly Products

STEAM WASH

Steam your exterior with TOQ ALMSAR PARKING CAR WASHING L.L.C in 40 minutes wherever you are located. Call it a steam bath if you wish; your car will definitely enjoy it! A steam exterior wash is an eco-friendly approach that utilizes the base measure of water for the steam, forestalls general wastewater spillover, and is emission-free. The power of steam lies in its ability to break down the dirt while being gentle on your car's exterior. Steam not only cleans your car but sanitizes it, too, due to the high temperature of steam! Our recommendation to you would be to assess how dirty your car is. If your car is extra dirty choose the Shampoo Exterior Wash service. Steam Bronze Wash includes all parts of your car's exterior as well as the tires and rims. This wash excludes interior cleaning, water pressure wash, shampoo wash, and bottom of the vehicle wash. Steam Bronze Wash is delivered by a van with all required, portable equipment.
